Office	LSK6054
Email/Phone:	eckwsiu@ust.hk / (852) 2358 - 7617
Office Hours:	By appointment
Teaching Assistant:	LAU Teresa, and CHEN Emily
Office:	LSK6066
Email/Phone	Teresa: ectylau@ust.hk Emily: eckuan@ust.hk
Office Hours:	By appointment

1 Course Description

As an introductory course, this course intends to cover fundamental concepts and tools used in microeconomic analysis. Economics provides a powerful way of thinking which helps you to understand many human and social phenomena. Real world examples and cases will be used as much as possible to enhance your understanding.

2 Textbook

“Principle of Microeconomics, Ninth edition” written by N. Gregory Mankiw, published by South-Western, Cengage Learning.

I will add additional topics and materials outside the textbook. All additional and supplementary materials will be delivered in Lecture PPT or posted on CANVAS.

3 Learning Outcome – School Intended Learning Outcome (“SILO”)

- Explain the methodology of microeconomic analysis, including key assumptions used, how economics differs from the other social science disciplines, and the strengths and limitations of this analysis framework (SILO # 1 and 4).
- Describe the key concepts and tools of microeconomic analysis, such as gain from trade and specialization, how price is determined in the free market, how efficiency is measured, how the market structure affects the determination of price and quantity

transacted, and decision-making by buyers and producers under constraints (SILO # 1, 3 and 4).

- Examine the role of government and its interaction with the free market by evaluating government policies and their impact on economic activities and justifications for government intervention or participation, such as to maintain the public good (SILO # 1, 3 and 4).
- Apply economic tools and principles to identify, analyze and propose explanations for and solutions to real world issues (SILO # 1, 3 and 4).

For the details of SILO, please visit: <http://www.bm.ust.hk/sbmllearn/eng/thirdcat.php?sid=5&thirdid=3>

4 Course Format and Teaching Approach

This course is delivered through lectures and tutorials. Students attend two 80-minute lectures per week. Please attend all lectures and participate in discussions. Tutorials will be arranged when it is needed. Tutorial times and topics will be announced during lectures and on CANVAS.

Teaching & Learning Activities	Roles	SILO Addressed
Lectures	Explain key concepts and their applications; Cases and examples to build student's critical and analytical ability	1, 2, 3, 4
In-class Q&A and discussion	Encourage class participation, critical thinking and discussion	1, 2, 3, 4
Problem Sets	Enhance understanding of course materials and their application through practice	1, 2, 3, 4

5 Course Website

All course materials and announcements will be posted on CANVAS: <http://canvas.ust.hk>. You should visit CANVAS frequently to receive the latest announcement, obtain class material and verify your personal grading record.

6 Office Hours and Appointments

Given different schedule of all of you, if you have any question on the course materials, please do not hesitate to contact me by email (eckwsiu@ust.hk) to setup an appointment.

7 Examinations and Grades

7.1 Problem sets:

Problem sets will be assigned for each chapter of the textbook. You have to turn in your own problem set answer on or before the deadline. Problem set submission would be done by uploading your answer through CANVAS. NO late submission will be accepted. I strongly suggest that you form small study groups to work on the problems. Suggested solution will be posted on CANVAS. If you have any questions about the problem sets, please seek help from me or TA.

$(n - 2)$ problem sets will be counted. That is if 11 problem sets are assigned in total finally, I will count the best 10 to your final grade.

7.2 Midterm Exams:

There will be TWO midterm exams. The midterm exam will cover lecture materials, problem sets and assigned reading (if any). Both midterm exams are based on multiple choice questions.

- Midterm Exam (1): Lecture time, date to be determined (Coverage: Ch1, 2, 3, 4, 5)
- Midterm Exam (2): Lecture time, date to be determined (Coverage: Ch6, 7, 8, 13, 14)

There will be NO makeup for the Midterm exams. If you miss both midterm exams for any reasons, you will receive ZERO for your midterm exams.

7.3 Final Exam:

The Final Exam is CUMULATIVE. It may contain multiple-choice, true & false questions and essay-type questions which require written explanation.

- Final Exam: 23 May to 2 June 2020 (To be announced by ARO)

If you intend to travel at the end of the semester, please be careful to arrange your travel plans to avoid any schedule clash. Request for a change of final examination date will not be accommodated.

7.4 Overall Grading for the Course:

Your total score for the course will be computed by the following two schemes, whichever yields the higher score for you. As you can see that it always makes sense to take both midterm exams.

Scheme (1): Total Course Score with TWO Midterms

Problem Sets	10%
1st midterm + 2nd midterm	15% + 15%
Final Exam	60%

Scheme (2): Total Course Score with ONE Midterm

Problem Sets	10%
The Midterm with higher score	20%
Final	70%

With my approval, make-up will be arranged for students who are absent from the final exam. Your request of absence from the final exam must be supported by valid documents, such as original copy of medical certificate issued by a registered medical practitioner. Absence from the final exam without approval will result in ZERO score.

For most cases, make-up exam will be scheduled the day after the official final exam date (if medical certificate indicates that you get one day sick leave). It is the responsibility for those who request for a make-up to ensure their availability. Please note that the instructor has the final discretion on all arrangements of the make-up exam. Students who request for the make-up final exam should comply all the requirements as communicated by the instructor. Failing to meet any requirements may result in a ZERO score.

8 Academic Honesty and Integrity

Academic integrity and honesty are one of the key values of HKUST. Please read the information on academic integrity carefully. It is your responsibility to be familiarized with the Academic Honor Code and the content on the Academic Integrity website. The site address is: <http://www.ust.hk/provost/integrity/index.html>

The Code will be STRICTLY enforced. I will report any violation cases to the University without exception and punishment will be imposed accordingly.

9 How to Get Help

TA and I are glad to answer questions and help with your study. If you have any worries or are under pressure about the course, I urge you in the strongest possible terms, to get help immediately. I would be very happy to talk with you and help you to find the appropriate solutions.

10 Classroom Etiquette

You are expected to be punctual for both lectures and tutorials and I will start and end the lecture on time. You are welcome to bring your laptop or other devices to lectures for learning purposes. Respect the others in class and do not disturb others with side conversation, Internet surfing, emails-checking or instant-messaging during class time. Please visit the following site for general guidelines on proper classroom behavior: http://www.ust.hk/provost/conduct/good_learning_experience.pps

11 Topics to be Covered

Ch1	Ten Principles of Economics
Ch2	Thinking Like an Economist
Ch3	Interdependence and the Gains from Trade
Ch4	The Market Forces of Supply and Demand
Ch5	Elasticity and Its Application
Ch7	Consumers, Producers, and the Efficiency of Markets
Ch6	Supply, Demand, and Government Policies
Ch8	Application: The Costs of Taxation
Ch13	The Costs of Production
Ch14	Firms in Competitive Markets
Ch15	Monopoly
Ch17	Oligopoly
Ch10	Externalities (*Optional, when time is available)
Ch11	Public Goods and Common Resources (*Optional, when time is available)
