ECON2103 (L4&L5) - Principles of Microeconomics

Spring 2023/2024 Department of Economics Hong Kong University of Science and Technology

Updated Jan 30, 2024

Lecture Time:	Jan 31 to May 10, 2024		
	L4: We & Fr 13:30-14:50 am		
	L5: We & Fr 16:30-17:50 pm		
Venue:	L4: Room 1409		
	L5: LSK1011		
Course Website:	https://canvas.ust.hk/		
Instructor:	LI, Xuan		
Office:	LSK6042		
Email/Phone:	<u>xuanli@ust.hk</u> / (852) 2358-7597		
Office Hours:	Mo 15:20 – 16:30 pm or by appointment		
Teaching Assistants:	YIP, Victor		
Office:	LSK6066		
Email:	victory@ust.hk		
Tutorials:	T4: Th 9:30 - 10:20 am, LSK1005		
	T5: Mo 12:00 - 10:50 pm, CYTG009A		
Office Hours:	By appointment		

1 Course Description

As an introductory course, this course intends to cover fundamental concepts and tools used in microeconomic analysis. Economics provides a powerful way of thinking which helps you to understand many human and social phenomena. Real world examples and cases will be used as much as possible to enhance your understanding.

2 Textbook

"Principle of Microeconomics, 9th edition" by N. Gregory Mankiw, published by South-Western, Cengage Learning.

- You are required to read the assigned textbook chapters / sections. (Most) problem sets can be found in textbook.
- Supplementary materials (if any) will be posted on CANVAS.
- Textbook includes the right to "Mindtap" (a web-based software with practice questions
- Using Mindtap is NOT required. Feel free to make your own choice.

3 Learning Outcome – School Intended Learning Outcome ("SILO")

SILO details

- Explain the methodology of microeconomic analysis, including key assumptions used, how economics differs from the other social science disciplines, and the strengths and limitations of this analysis framework (SILO # 1 and 4).
- Describe the key concepts and tools of microeconomic analysis, such as gain from trade and specialization, how price is determined in the free market, how efficiency is measured, how the market structure affects the determination of price and quantity transacted, and decision-making by buyers and producers under constraints (SILO # 1, 3 and 4).
- Examine the role of government and its interaction with the free market by evaluating government policies and their impact on economic activities and justifications for government intervention or participation, such as to maintain the public good (SILO # 1, 3 and 4).
- Apply economic tools and principles to identify, analyze and propose explanations for and solutions to real world issues (SILO # 1, 3 and 4).

4 Course Format and Teaching Approach

This course is delivered through lectures and tutorials. Students attend two 80-minute lectures and one 50-minute tutorial per week. Please attend all lectures and tutorials and participate in discussions.

Teaching & Learning			
Activities	Roles		
Lectures	Explain key concepts and their applications; Cases and examples to build student's critical and analytical ability		
In-class Q&A and discussions	Encourage class participation, critical thinking and discussion		
Problem Sets	Enhance understanding of course materials and their application through practice		
Tutorials	Review and synthesize course materials; Supplementary samples and exercises		

5 Course Website

All course materials and announcements will be posted on CANVAS: <u>http://canvas.ust.hk</u>. You should visit CANVAS frequently to receive the latest announcement, obtain class material and verify your personal grading record.

6 Examinations and Grades

Problem sets:

- Problem sets will be assigned for each chapter of the textbook. You have to turn in your problem set answer on or before the deadline. Problem set submission would be done by uploading your answer through CANVAS. <u>Only electronic submission in PDF format is allowed</u>. NO late submission will be accepted.
- You are encouraged to form small study groups of <u>at most 4</u> members to work on the problems. If you decide to work in a group, only one group member needs to submit a copy on behalf of all the group members, with the names and student IDs of everyone listed at the beginning of your problem sets. See the format in: Files/ProblemSets/Assignment_Frontpage.docx.
- Each problem set is graded with a score of 0, 1 or 2. *N-1* problem sets will be counted into final grade (*N*= # problem sets).
- Suggested solution will be posted on CANVAS. If you have any questions about the problem sets, please seek help from me or the TA.

Midterm Exams:

There will be TWO midterm exams. The midterm exam will cover lecture materials, problem sets and assigned reading (if any).

- Midterm Exam (1): March 13 (tentative)
- Midterm Exam (2): April 24 (tentative)

There will be NO makeup for the Midterm exams. If you miss both midterm exams for any reasons, you will receive ZERO for your midterm exams.

Final Exam:

The Final Exam is CUMULATIVE. It may contain multiple-choice, true & false questions and essay-type questions which require written explanation.

• Final Exam: TBA

If you intend to travel at the end of the semester, please be careful to arrange your travel plans to avoid any schedule clash. Request for a change of final examination date will not be accommodated.

Overall Grading for the Course:

Your total score for the course will be computed by the following two schemes, whichever yields the higher score for you. As you can see that it always makes sense to take both midterm exams.

Scheme (1): Total Course Score with TWO Midterms

Problem Sets	10%
1st midterm + 2nd midterm	15% + 15%
Final Exam	60%
2	

Problem Sets	10%
The higher Midterm	25%
Final	65%

Scheme (2): Total Course Score with ONE Midterm

With my approval, make-up will be arranged for students who are absent from the final exam. Your request of absence from the final exam must be supported by valid documents, such as original copy of medical certificate issued by a registered medical practitioner. Absence from the final exam without approval will result in ZERO score.

For most cases, make-up exam will be scheduled the day after the official final exam date (if medical certificate indicates that you get one day sick leave). It is the responsibility for those who request for a make-up to ensure their availability. Please note that the instructor has the final discretion on all arrangements of the make-up exam. Students who request for the make-up final exam should comply all the requirements as communicated by the instructor. Failing to meet any requirements may result in a ZERO score.

7 Academic Honesty and Integrity

Academic integrity and honesty are one of the key values of HKUST. Please read the information on academic integrity carefully. It is your responsibility to be familiarized with the Academic Honor Code and the content on the Academic Integrity website. The site address is <u>http://ugadmin.ust.hk/integrity/student-1.html</u>. The Code will be STRICTLY enforced. I will report any violation cases to the University without exception and punishment will be imposed accordingly.

8 Email Policy

- When sending me email, directly send to: <u>xuanli@ust.hk</u>. Please DON'T just reply to my message on or send me email through CANVAS. Please your UST account for email communication, and put down your full name and student ID.
- Please put down at the Email Subject Line: <u>ECON2103 L4/L5: [e.g.: Question on Midterm]</u>
- Please check your UST email frequently or set up email forwarding so as to receive the most up-to-date announcements.
